Oguz Doruk · iOS Developer

contact@oguzdoruk.com | Istanbul, Turkiye |25 March 1995 | WhatsApp: +90 538 061 3550

Availability: **Immediate joiner**

Software developer with more than 10 years of experience in many different programming languages, specializing in **iOS development for over 7 years**. In addition to my technical expertise, I have a strong interest in design and creating intuitive user experiences.

Experience

Independent iOS Developer · Remote
June 2024 - Present

- Designed, developed, and launched several iOS apps end to end, owning UI/UX, code, testing, and release.
- Completed two successful exits, selling independently developed apps to external companies.
- Managed backend integration, analytics, App Store Optimization, and user feedback loops.

Tech stack: SwiftUI, Combine, UIKit, Firebase, Supabase, RevenueCat, AI APIs (OpenAI, Claude, Gemini)

Cue Health · San Diego, CA, United States (Remote)
March 2023 - June 2024
Senior Mobile Software Development Engineer, iOS
Cue Health is a healthcare tech company providing diagnostic tests and telehealth via its platform, I am part of the mobile app development team where I enhance user experience and functionality. I actively develop new features and address bug fixes, leveraging advanced technologies such as ***VIPER, MVVM, GraphQL, Shopify, MongoDB**, and **Realm*** to ensure reliable and scalable app performance.

FLO Magazacilik · Bağcılar, İstanbul, Türkiye (Remote)
Aug 2021 - March 2023
Senior iOS Developer
FLO Mağazacılık, serving over 22 countries and specializing in footwear and fashion accessories, is headquartered in Istanbul. As part of a team, I contributed to the upgrade of key e-commerce applications—*FLO*, *InStreet*, and *NineWest*—from ***Objective-C*** to ***Swift***, enhancing functionality and user experience. My role also involved developing proficiency in ***RxSwift***, ***SwiftLint***, and ***SwiftUI***, ensuring robust and user-friendly mobile applications.

PixelPlus · Beşiktaş, İstanbul, Türkiye (Hybrid)
Dec 2020 - Aug 2021
iOS Developer
PixelPlus, a software agency that serves various industries including ***FinTech***, collaborates with major Turkish banks like Garanti BBVA and Akbank. I played a role in enhancing and adding new features to multiple projects, utilizing ***RxSwift***, ***Reactive Programming***, and ***SwiftUI*** to improve functionality and user experience.

ElephantApps · Ataşehir, İstanbul, Türkiye (Remote)
Jun 2020 - Nov 2020
iOS Developer - 6 Months Contract
ElephantApps, a software company that develops mobile, web, and server applications with a focus on user experience, engages in various client projects. I worked on project-based developments for AxaFit, a fitness and health app, utilizing ***Dependency Injection***, ***UIKit***, and ***Programmatic UI*** to enhance app functionality and user engagement.

Pwin Labs · Sarıyer, İstanbul, Türkiye (Hybrid)
Nov 2019 - Jun 2020
iOS Developer
Pwin Labs, a startup, offered a dynamic work environment where I contributed to the development of PQuiz, a live trivia show app hosted daily and available for free on both the App Store and Google Play. My role focused on integrating ***REST APIs*** and employing robust ***version control*** practices using ***Git*** to ensure application stability and streamlined updates.

BT & Partners Group · Tallinn, Estonia (Remote)
Nov 2018 - Apr 2019
iOS Developer · Erasmus+ Internship
BT & Partners Group, an Estonian startup, provided a dynamic environment where I engaged in various iOS projects during my short-term Erasmus+ internship. I focused on integrating **REST APIs**, utilizing Git for version control, and applying ***object-oriented programming (OOP)*** principles to develop robust mobile applications.

Korkut Ata University · Osmaniye, Türkiye (On-site)
Apr 2017 - Sep 2018
iOS Developer · IT Specialist
During my studies at Korkut Ata University, I worked part-time in the IT Department where I developed the university's official mobile app. As an IT Specialist and iOS Developer, I utilized technologies such as ***Swift***, ***UIKit***, ***Xcode***, ***Json***, and ***API*** to enhance app functionality and user experience.

Arcelik · Adana, Türkiye (On-site)
Oct 2013 - Jun 2014
Technician · High School Internship
Nine-month internship in the IT department of Turkey's leading appliance manufacturer, assisting with internal system maintenance, minor software updates, and troubleshooting tasks.

Education

Korkut Ata University
Management Information Systems · 2014 - 2019
During my time at Korkut Ata University from 2014 to 2019, I studied Management Information Systems and got to dive into everything from programming in Visual Basic and Delphi to marketing, design, and automation. It was a great mix of tech and business that really rounded out my skills.

Adana Vocational and Technical Anatolian High School
2010 - 2014 · Industrial Automation
At Adana Vocational and Technical Anatolian High School, where I studied Industrial Automation, I learned the basics of software, design, and industrial automation. This education provided me with a solid foundation in both the technical and practical aspects of automation technologies.
